

Raíz

Rooted locally, modern globally.

BRAND & DESIGN SYSTEM · V1

01 — DIRECTION

What Raíz stands for

The feeling every page, color, and word should create.

Raíz is *warm, grounded, and trustworthy* — modern clarity and craft, built for the people who run Guanacaste.

Who we design for

A Guanacaste small-business owner — a soda, a hotel, a tour operator — not a design-savvy creative. The brand has to feel inviting and credible to them on the first glance.

WE ARE

Warm & rooted

Earthy color, a little editorial craft, and plain language that builds trust. Local at heart, modern in execution.

WE ARE NOT

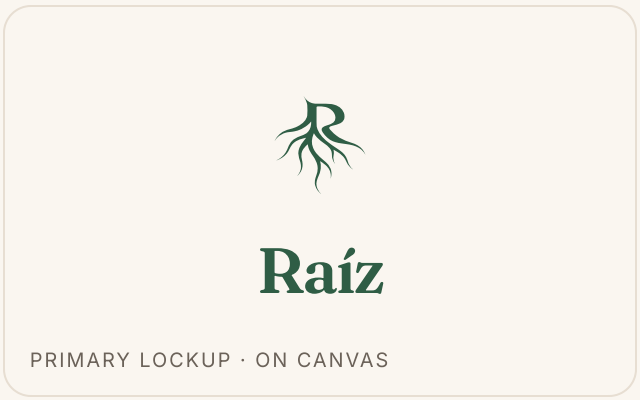

The "creative studio" cliché

We explicitly rejected dark, monochrome, animation-heavy design — it reads as cold and intimidating to our audience.

02 — LOGO

The mark & wordmark

A sprout breaking from its roots — growth grounded in place.
The wordmark is set in Fraunces.

DO

Give it room

Keep clear space of at least the height of the mark on every side. The mark is a single path and inherits currentColor — recolor via CSS, never repaint by hand.

DON'T

Distort or recolor off-palette

No stretching, rotating, drop shadows, gradients, or colors outside the brand palette. Keep contrast high enough to read at small sizes.

03 — COLOR

Earth, growth & warmth

The colors of Guanacaste soil and nature. Every text/UI pair is verified ≥ 4.5:1 (WCAG AA).

Accent · terracotta
`--color-accent`
Primary CTAs

Green = roots

Trust and calm. Brand identity, links, and quiet accents.

Terracotta = action

Warmth and energy. Every primary CTA, nothing else.

Cream = welcome

Keeps the whole thing soft and inviting, never cold.

WhatsApp green #25D366 is a platform signal — reserved **only** for the floating WhatsApp button and WhatsApp links. It is never a brand color.

04 — TYPOGRAPHY

Fraunces & Inter

A warm editorial serif for display, a clean neutral sans for everything else. Distinctive without being quirky.

Fraunces

DISPLAY · HEADINGS

Rooted locally, modern globally.

Variable serif · optical sizing · warm, editorial, a little characterful → craft + establishment + trust.

Inter

BODY · UI

Sitios web con raíces para los negocios de Guanacaste.

Clean, neutral, and highly legible — including Spanish accents and punctuation (á, é, í, ó, ú, ñ, ¿, ¡). Inter carries all body copy, labels, buttons, and interface text across the site.

Regular 400 **Medium 500** **Semibold 600** **Bold 700**

Display scale — Fraunces 600

HEADINGS

H1 · 48px — Soluciones digitales

H2 · 32px — Planes de cuidado

H3 · 24px

Hecho en Guanacaste

05 — SHAPE, MOTION & COMPONENTS

How it moves & fits together

Soft corners, responsive press feedback, and a small set of reusable primitives.

Buttons

Hablemos

Ver planes

CTA pequeño

Secundario

- `.btn-accent` — terracotta, every primary CTA
- `.btn-ghost` — outline, secondary
- Press: `scale(0.97)`, strong ease-out

Radius & shape

- Token `--radius: 0.875rem` on cards & fills
- Buttons use full pills (`9999px`)

Motion & accessibility

- Responsive, quick feedback — never decorative
- Always respect `prefers-reduced-motion`
- SVG icons only — no emoji
- Visible focus · 4.5:1 contrast · 44px touch targets
- Test at 375 / 768 / 1024 / 1440

Card

PLAN DE CUIDADO

Siempre al día

Actualizaciones, respaldos y soporte — tu sitio cuidado mes a mes.

- Hover lift on pointer devices only
